LETTER

Hi,

I'd like to introduce you to **Yohan**, one of the artists on the **Blackline Bookings** roster.

Born in Medellín and raised in Valencia, he lives in Valencia and has built his career there. House is his foundation, which he blends with techno and minimal: high energy, a strong identity and real control of the dancefloor. Beyond DJing, he's also the co-founder of TECHTURE.

Since January 2025 he's played more than forty dates, most of them at clubs and festivals in Valencia, and in 2026 he started playing further afield: Keeper, Hedges and Tantra in Ibiza, and Dear Darling in London. He's now getting into production and working on a hybrid live set, running Traktor and Ableton side by side.

If Yohan could be a fit for your club, festival or event, I'd love to talk it through. Just drop me a line whenever suits you.

All the best,

Arturo Jornet

- **Flexible formats.** 90–120-minute club sets, festival slots and private events, in Spain and abroad.

He's just getting started in production and has no releases out yet. For now, his calling card is his live sets (section 04) and his track record behind the decks.
